CUSTOMER SATISFACTION INDEX

Mobile APP

All necessary services are gathered in one simple app which will facilitate your communication with a customer. All the required documents and information about the customer's vehicle are already uploaded to this app.

You can seamlessly add some extra info as well. This app is very easy to use! Thanks to a detailed list of options you will identify the customer's needs in a matter of seconds. Provide a great service to your customers and help them manage their time.

With the Autoxloo CSI app it becomes easier for your customers to order parts or schedule a service appointment. This application will keep your buyers satisfied with their car, truck, minivan or SUV performance. Improve the overall customer satisfaction index by showing your buyers you are there for them.

Give your customers the opportunity to send service requests & attach photos right from the app. Allow them to monitor the service process to completion. After the repairs are finished, the customer receives a message or email that the service has been done.
